Nobody should be scared of this person. They have merely taken advantage of some people's fear. This person could not harm any of us in a thousand years.

@Skye & Darkcat:

Quartz had a dream about the forums being destroyed by an angry forumer named Venus. After reading that, Chattydress (who was supposedly new) changed their nickname to Venus, apparently to target Quartz. Before that, Venus had been farming stars and using bad grammer/spelling. Now, they have taken up the identity of this Venus, and have said they are not new to the forums.
